SUMMARY

I am a versatile Full Stack Developer with expertise in front-end development using Angular and back-end development with Laravel. I specialize in building dynamic, user-friendly interfaces and integrating them with robust, scalable server-side applications. I am skilled in designing and optimizing APIs, managing databases, and ensuring seamless communication between front-end and back-end systems. Committed to delivering high-quality, efficient, and secure solutions, I continuously stay updated with modern technologies and best practices to enhance my skills and deliver impactful results
